Some enchanted evening

You may see a stranger

You may see a stranger across a crowded room

And somehow you know

You know even then

That someday you'll see her again and again

Some enchanted evening

Someone may be laughing

You may hear her laughing across a crowded room

And night after night

As strange as it seems

The sound of her laughter will sing in your dreams

Who can explain it who can tell you why

Fools give reasons, wise men never try

Some enchanted evening

When you find your true love

When you feel her call you across a crowded room

Then fly to her side

And make her your own

Or all through your life you may dream all alone

Once you have found her never let her go

Once you have found her never let her go
