Save your breath
I see the storm coming
I feel the clouds closing in
Hush your mouth
I'll find the words for you

Oh your poor heart don't feel the same
We'll still be friends
But I'm alone again

So you don't have to say
What you're thinking now
Baby don't be afraid
I'll try and make it easy for you
I'll cry the tears a little later on
You don't need to worry
I know I have been replaced
It's written all over your face

You wish you could
Feel the way that I do
You never meant to hurt me
The cliché's good
There's someone out there waiting

Oh that I'll find along the way
But I thought that was you?
Yet I'm alone again

So you don't have to say
What you're thinking now
Baby don't be afraid
I'll try and make it easy for you
I'll cry the tears a little later on
You don't need to worry
I know I have been replaced
It's written all over your face

It's the hardest thing
You've ever had to do
You just wanna tell the truth

Well that's nice of you

But you don't have to say
What you're thinking now
Baby don't be afraid
I'll try and make it easy for you
I'll cry the tears a little later on
You don't have to let all the reasons out
But you don't have to lie
I know this is hard for you
But I deserve a little honesty
Don't even worry
I know I have been replaced
It's written all over your face
