Come on baby talk to me
come on baby...

Baby if you wanna say goodbye...

There is something wrong with you tonight
I can see it deep in your eyes
I think you're not in love with me
not like you were before

And I know so well that your love has gone
it won't come back to you anymore
don't tell me everything's ok
if you're not kissing me baby

Baby if you wanna say goodbye
you can do it but don't tell me lies
do it with style
tell me what is going through your head
is it something that I said, no lies
do it with style

I respect your feelings please do the same
love should not be a game
talk to me I have the right
and I don't wanna fight

cause I wanna hold deep inside my heart
every special moment we had
don't fool me with stupid lies
and baby go ahead

Baby if you wanna say goodbye...
