"Love At First Sight"

Baby all night long Iâve been thinkin
whoâs the love that Iâll just get
like a song I keep hearing your voice
telling me you wonât forget
when I look at you I feel excited
itâs just like a fantasy
I made up my mind in just a moment
knew you were the one for me
never thought this would happen
but now that I am in your arms

I believe in love at first sight
I believe in you, only you and I
I believe in love at first sight
I believe iyâs true coz with you Iâm alive

Told you what I feel I needed to
it came to me so naturally, naturally
something about the way you touched my body
said that we were meant to be
you are always on my mind
and I want the world to know baby baby

I believe in love...

You are always on my mind
and I want, I want you to know

I believe in love...
