i got to seek in my heart  
it's not easy to start once again  
is it a good thing to save  
a love that's only a name  
or let it die again  
"I feel ok" you say "I'm not sure"  
oh let me tell you this thing once more  
I I can read in your eyes it's so easy  
the million things you want to hide

why don't we talk anymore  
tell me baby baby tell me  
why don't we talk anymore  
let me try with you once again  
just like your friend

I'll speak to you heart to heart  
this love will tear me apart  
I'll get the short end  
in my brain just a name your name  
you again  
friend keep me as your friend but keep me  
words I don't say because of my pride  
while this love for you's just a ride  
i really need it to survive

chorus

it's not easy not easy  
to beg you this way  
i'm goin' crazy  
i need you like the air  
that I breathe I'm so scared  
why don't we try once again  
if you really care

chorus
