I keep setting standards for myself
Another stone for this wall inside my head
I just wanna be half the man I expect
This craving holds me down like a rope that ties me to
my bed
I need some help
So I don't go under
I need some help
So I don't
Buckle under pressure
Cold air in my balloon
Buckle under pressure
Cold air in my balloon
Buckle under pressure
Caffeine keeps me up pouring thoughts out through my
pen
Another stone for this wall inside my head
I just need this sleepless night to end
But nothing helps as I push myself over the edge
I need some help
So I don't go under
I need some help
So I don't
Buckle under pressure
Cold air in my balloon
Buckle under pressure
Cold air in my balloon
Buckle under pressure, yeah
Buckle under pressure
Buckle under pressure
I need some help!
Buckle under pressure, yeah, yeah
Buckle under pressure, oh
