Ive always been sceptical of people praising their
conformities
Guys taking great pride in being like the others like
their mothers-in-law wanted
Ref:does my tie fit alright?
Is my fly up and tight?
Stay as you are and you wont make a difference
Stay as you are and you will never mean a thing
Stay as you are and you wont make a difference
I hope your full control in your little hole is worth it
Ive never thought that to reach the masses you stick
your tongue up in the right asses
But that's the system that works in here you make
yourself appear electable
Ill just play whatever
Your game
You go first
Ill do the same
Stay as you are and you wont make a difference
Stay as you are and you will never mean a thing
Stay as you are and you wont make a difference
I hope your full control in your little hole is worth it ,is it
worth it?
You brag about being an autonomous man
In an autonomous land of independence and free
thinking
But it's been five years pm and you're still nothing but a
lackey
A puppet on a string
Ill look great when the war is over
Ill be waving from my rover
Stay as you are and you wont make a difference
Stay as you are and you will never mean a thing
Stay as you are and you wont make a difference
I hope your full control in your little hole is worth it
I hope your full control in your little hole is worth it
I hope your full control in your little hole is worth it ,
