### "Let Me Go"

It's been a long week  
It's been a rough month  
It's been a tough couple of years  
It's been a while now since I first left  
But you know I ain't ever looking back

Just let me go on my own  
Just let me go, let me go  
Just let me go on my own  
Just let me go, let me go

I wake up to a throbbing head  
I wish I'd never waken at all  
I scramble up and out, I'm on the bus again  
I smashed the picture frame after what was said  
An argument I can't forget

Just let me go on my own  
Just let me go, let me go  
Just let me go on my own  
Just let me go, let me go
