(Career career love is a career)  
(Career career love is a career)

Always sent her flowers  
(Career, career love is a career)  
Hold her hand for hours  
(Career, career love is a career)

Warm and sentimentally  
(Career, career love is a career)  
Always sigh when she is near 'cause love is a career  
(Career, career love is a career)

Every time you dine her  
(Career, career love is a career)  
Candle light and wine her  
(Career, career love is a career)

Make it like romancing  
(Career, career love is a career)  
When you take her dancing  
(Career, career love is a career)  
Whisper things in her ear 'cause love is a career  
(Career, career)

That million I guess proves you're a success  
But proves a whole lot more  
So mister just close that store  
And write down loving on the door  
(Career career love is a career)

No two ways about it  
(Career, career love is a career)  
What's the world without it  
(Career, career love is a career)

Stand right up and shout it  
(Career, career love is a career)  
From roofs above  
(Career, career love is a career)

Life will glow like a chandelier

If you make a career of love  
(Career, career love is a career, career, career love is a  
career)  
Of love
