Every minute every hour  
My love grows in every way,  
Every minute every hour  
That's the way it goes everyday.

How I wish the days were longer  
Every minute one more thrill,  
Every hour it grows stronger  
And it always will.

Chorus:  
I live for tomorrow  
For I know what's in store,  
I can be sure that tomorrow  
Will be sweeter than before.

I'll do all that's in my power  
Just to keep the old ways new,  
Every minute every hour  
I'll spend loving you.

Every minute every hour  
I'll spend loving you
