(Buddy Lester - John Gluck)

A little voice deep within me  
Says our romace is through  
I've been suspicious lately  
Your coldness gave me the clue.

A little voice deep within me  
Says we're drifting apart  
The way you say I love you  
No longer comes from your heart.

I wanna hear you tell me  
That your love still is strong  
I want those old embraces  
To prove my fears are wrong.

You'll find that someday  
If you'll leave me  
I will know how, how to cry  
With that little voice within me.

I know how to tell you goodbye  
With that little voice within me.

I know how to tell you goodbye...
