

Dean Martin "Love Thy Neighbor"

Visit "[Love Thy Neighbor](#)" on MotoLyrics.com

Love thy neighbor, walk up and say how be ye
Gee, but I'm glad to see ye pal, how's Tricks? What's
new?

Oh, love thy neighbor, offer to share her burden
Tell her to say the word 'n' you'll see her through

Specially if there should be a beautiful girl next door
Now you say to that girl next door
Don't think I'm bold but my mama told me
To love thy neighbor and you will find your labor
A great deal easier life will be breezier if you love thy
neighbor

Oh, love thy neighbor, walk up and say how be ye
Gee, but I'm glad to see ye pal, how's Tricks? What's
new?

And love thy neighbor, offer to share her burden
Tell her to say the word 'n', you'll see her through

Now especially if there should be a beautiful girl next
door

Now you say to that girl next door
An, don't think I'm bold but my mama told me
To love thy neighbor and you will find your labor
A great deal easier life will be breezier if you love thy
neighbor
