(Marguerite Mannot - Jack Lawrence - Rene Rouzaud)

Just got back from Paris France all they do is sing and
dance

All they've got there is romance what a tragedy
Every boulevard has lovers every lover's in a trance
The poor people of Parea.

I feel sorry for the French every guy has got a wench
Every couple's got a bench kissing shamelessly
Night and day they're making music while they're
making love in French
The poor people of Parea.

--- Instrumental ---

Milk or water from the sink make a true Parisian shrink
Wine is all he'll ever drink and it worries me
For with wine as cheap as water oh it makes one stop
and think
The poor people of Parea.

Sister met a boy named Pierre had the craziest love
affair
And the day they parted there he cried bitterly
Pierre was there to bid her farewell but he brought his
new girl Claire
The poor people of Parea.

So don't go to Paris France not unless you like to dance
Not unless you want romance like those poor
inhabitants of Parea...
