Choir: Rio Bravo, humming)

By the river

Rio Bravo

I walk all alone

And I wonder as I wander by the river

Where my love has flown

All the birds in the cottonwood above her

Know I love her

Know I care

But my dreams, like the songs, she sang in Spanish

Seem to vanish

In the air

I wonder where

So I wonder as I wander

Will love come along

Must I live ever after

By the memory of her song

While the river Rio Bravo flows along

(Choir: Rio Bravo, Rio Bravo)

While the river Rio Bravo flows along

(Choir: Rio Bravo)
