

Dean Martin "Second Chance"

Visit "[Second Chance](#)" on MotoLyrics.com

If I only had a second chance how I'd love you
If you'd only take a second chance with your heart
Darlin' this time I swear at least a lifetime we'd share
No one could tear our love apart

If I only had a second chance how I'd hold you
Just a surely as the love we knew clings to me
I would show what devotion can be
Darlin' just give me a second chance and you'll see

(Oh my darlin'
If I only had a second chance how I'd love you
If you'd only take a second chance with your heart
Darlin' this time I swear at least a lifetime we'd share
No one could tear our love apart)

If I only had a second chance how I'd hold you
Just a surely as the love we knew clings to me
I would show what devotion can be
Darlin' just give me a second chance and you'll see
