(Baker Knight)

There's a sneaky little side of me the kind I want to set
you free
So I can go see what's waitin' just over the hill
Every now and then I hear something whisper in my ear
Telling me somebody else could give me a thrill.

Oh, the sneaky little side of me the kind I want to go
and see
And I could be happier walking with somebody new
But every time I start to go something in my heart says
no
And tells me how lucky I am belongin' to you.

And this sneaky little side of me
Is learning fast
'Bout the way I'm livin' and the love I'm givin'
And the love that couldn't last.

When you meet me at the door each night
And put your arms around me tight
I know that there just couldn't be anyone sweeter than
you
Suddenly to my surprise I begun to realize
That the sneaky little side of me is in love with you too.

Oh, suddenly to my surprise I begun to realize
That the sneaky little side of me is in love with you too.

(Sneaky little side of me, the sneaky little side of me.
Sneaky little side of me, the sneaky little side of me...)
