'Cause that old time feeling's still inside my heart

Well, I'm sorry but it took me by surprise
To be looking in those old familiar eyes
If I'm acting funny please don't turn away
Seeing you has brought me back to yesterday

Yes, you're looking at the fool who used to be
In another world where love was new to me
But I learned my lesson when I let you go
And there's one thing that I've wanted you to know

If that old time feelin' ever starts again
And you think about the way it might have been
Don't let yesterdays mistakes keep us apart
'Cause that old time feelin's still inside my heart

If that old time feelin' ever starts again
And you think about the way it might have been
Don't let yesterdays mistakes keep us apart
'Cause that old time feelin's still inside my heart

Inside my heart
