A sea of stardust, a cool midsummer breeze  
The dew of orchids, the rustle of the leaves  
The quiet magic of silhouetted trees  
What could be more beautiful

The hush of evening so peaceful and so still  
The brilliant glow of the moon beyond the hill  
The sudden song of a lonely whippoorwill  
What could be more beautiful

What could match that moment when  
The dawn paints the sky  
Setting of the scene before  
The birds start to fly

To wanna please you and then to learn, 'I do'  
To dream you need me and have my dreams come  
true  
To know you love me as much as I love you  
What could be more beautiful

To wanna please you and then to learn, 'I do'  
To dream you need me and have my dreams come  
true  
To know you love me as much as I love you  
What could be more beautiful
