(You'll always be the one I love  
You'll always be the one I love)  
Every hour every day every year  
You'll always be the one I love  
Through each smile through each sigh through each  
tear  
My heart will feel the same old glow  
Even though the stars may fade from above  
Well I promise there will be no other arms for me  
You'll always be the one I love

(You'll always be the one I love  
You'll always be the one I love)  
My heart will feel the same old glow  
Even though the stars may fade from above  
I promise there will be no other arms for me  
You'll always be the one I love  
You'll always be the one I love
