Don't try to walk through the fire  
Don't try to understand the liar

You know I am a true believer  
I believe in things you've never seen  
You know I am a stone cold killer  
Unable to feel what you feel

Say goodbye or get on my side  
Don't even try to give in  
'Cause it's over now  
I watch you fade, watch you fade away  
One step back and you're mine  
On the other side

No, you cannot lead you will follow

No, your pride you will have to swallow

You know you are a true deceiver  
You know you are made of lies  
You know you are a stone cold killer  
Unable to hear their cries

Say goodbye or get on my side  
Don't even try to give in  
'Cause it's over now  
I watch you fade, watch you fade away  
One step back and you're mine  
On the other side
