

## Sparzanza "Red Dead Revolver"

Visit "[Red Dead Revolver](#)" on MotoLyrics.com

I got a cold piece of steel  
Was immortalized by the way it made me feel  
I was afraid to make a deal  
With the darkened one and I fell down to my knees  
Through the darkness in the shade you'll fade

Red dead revolver  
I try to shut my eyes  
When I hear your voice inside  
We are one, we are one, we are one  
And the end is coming closer  
You try to tie my arms  
'Cause I'm under your control  
We are one, we are one, we are one  
Red dead revolver

I know six ways to die

You got to ask yourself if you really wonder why  
You got nowhere to run  
So you're staring down the barrel of a gun  
Through the darkness in the shade you'll fade

Red dead revolver  
I try to shut my eyes  
When I hear your voice inside  
We are one, we are one, we are one  
And the end is coming closer  
You try to tie my arms  
Cause I'm under your control  
We are one, we are one, we are one  
Red dead revolver
