Take my hand like you did that night
Don't say anything
I'm not afraid to be at this height
Not afraid of anything
Your heartbeat gave me, gave me shock treatment
And I can't keep it a secret
You stole my heart, so now I'm gonna still your kiss.
I wanna be kissed by you, because then my heart wont
be blue
Don't you know my love is so strong
By my side is where you belong.
Take my hand like you did that night
Don't say any, anything
I'm not afraid to be at this height
Not afraid of anything
Your heartbeat gave me, gave me shock treatment
And I can't keep it a secret
You stole my heart, so now I'm gonna still your kiss.
I wanna be kissed by you, because then my heart wont
be blue
Don't you know my love is so strong
By my side is where you belong.
You got my insides excited and I cannot fight it
I'm dreaming just of you, when he walks smart he hits
the mark
Outta 10 he's 22.
