Staring at you on the way to school, hanging with you  
was just a dream.  
But I had you for a little while and we made a killer  
team  
Now I'm never gonna leave you  
Spazzys always by your side  
Coz of all the people I hang out with, you're my  
favourite ride.  
Coz you left my heart in the garage baby  
And now I'm losing my mind  
You and rock'n'roll are the ways that I wanna waste my  
time.  
You're my teenage fantasy, you know and I'm your  
punk rock girl  
Coz you left my heart in the garage now and I think I'm  
gonna hurl  
You busted me right out of hell to play games in the  
arcade.  
Then you left me there all alone  
Thinking that we could had it made.  
Didn't you have fun with me all those nights we came  
home late  
Coz I wanna hang around with you forever and  
goodbyes can always wait.  
Coz you left my heart in the garage baby  
And now I'm losing my mind  
You and rock'n'roll are the ways that I wanna waste my  
time.  
You're my teenage fantasy, you know and I'm your  
punk rock girl  
Coz you left my heart in the garage now and I think I'm  
gonna hurl
