Promises broken, still feel the contentment
Living a lie built on fear and resentment
Losing myself in a shattered dream the world
But i can't and i wont
Even through i can't be the one to save you

Live out your life, and suffer what you've done
Can't fear fire or darkness at all

Lunatic's in my head
I never heard what you said
You're putting things in my head
And your living through me

In'm hearing things in my head
In ever heard what you've said
Your putting things in my head
Your living through me

Lookign around me paranoid by the scene
The 10o'clock news is like a motherfuckign dream
You've got kids killing kids
And cops getting paid
I believe this is what we know as the Amerikan dream

Live out your life and suffer what you've done
Can't fear fire or darkness at all
Lunatic's in my head
I never heard what you said
You're putting things in my head
And your living through me

You can't save me, you can't save me
You can't save me, you can't save me
So just let me go

You're preaching peace but peace of mind is much
better
Stop talking shit about your sports and your weather
And let me know what's really going on in your little
mind

But you never look and you never try
You just never look and you never try
