Righteous fires of the great solar man.  
He comes on wings of SJ-12.

Fires of the superman.  
High solar deity.  
Awaken mother Kundalini.  
Terrible power.

Provoke the chakras of hyperspace  
Into activity

The great rebellion  
This is the way  
The truth to unfold  
Set you free  
Into the kingdom

Lord of your domain  
OM the great herald  
Awakener of the superior  
Fight for me

Usana's of power  
Shake the night  
The terrible might of astral flight  
Shake the universe

Fire dragon, green breath
