Nothing for young people in Colchester
There's nothing for them to do
So don't blame the kids for everything
'Cos a lot of it's down to you

Colchester Council full of shit

The Council Committees in Colchester
Are not interested in youth
They too busy thinking about what's in it for them
They don't give two fucks about you

They know there's no jobs in Colchester
But they won't start to fret
Until they find themselves out of work
They don't care about what you get
