Justice? There ain't no fucking justice!

They're out of touch and incompetent  
And they don't know what the people want  
Voting on behalf of you and me  
Waving two fingers at democracy

Judge and jury is what they are (judge and jury, judge  
and jury)  
This time they have gone too far (judge and jury, judge  
and jury)  
Public opinion does not count (judge and jury, judge  
and jury)  
They've got guns for sale with a cash discount

How many more times must we see  
Massacred innocents on tv  
An amnesty is not enough  
So don't try and tell me that it costs too much

Parents and children are living in fear  
Of a sick society that sheds no tears  
A real justice system can not be found  
We've got parasites in the school playground
