

## Special Duties

# "Too Much Talking"

Visit "[Too Much Talking](#)" on MotoLyrics.com

Why do you blame youth for what's happening today  
Who got us in this mess anyway  
Does it make you feel better to pass the blame  
Of course it does because your all the same

Too much talking to get no results  
Too much talking always looking for faults  
Too much talking that's what you do  
And that's why we've got no faith in you

What do you expect when you give us nothing  
We've got no incentive for whatever we're doing  
You won't even listen to what we're trying to say  
Instead you give more orders because that's your only  
way
