There was a stint when I only did u for the income I got accustomed to this lifestyle money & freedom Like a desk job a 9 to 5 with no passion No longer wrote songs but wrote music equations I used my bills as an excuse my children have to eat right? Plus this business don't care all they puttin' out is dance beats right? People only wanna shake now pacify 'em let 'em shake now Intoxicate 'em don't let 'em wake now we're livin' in a commercial break now it ain't about music & life.

Chant: Brought to by Sprite, lugs, and sean john, tommy hilfiger, Phat farm and vh1 it's the choice of a new generation. But I wasn't about that.

I used to go days without eating breakfast to create a musical banquet so the world could partake of it. But somewhere it got to be just plain 'ole fast food. Am I livin' life or is life livin' me? I can do all things thru him who strengthens me a promise from my God thru his word to me. It's all up to me my music & me.

Chant: Brought to by Sprite, lugs, and sean john, tommy hilfiger, Phat farm and vh1 it's the choice of a new generation. But I wasn't always about that.
