Walls of hate  
See them rise  
Self-indulgent  
Hear the calls  
Every minute  
Domination all that I've become

Superficial high  
Self-destructive low  
Purgatory  
Tormenting me, torment my soul

Beyond this life I face  
No compromise  
Beyond this life, my fate  
We perish the life subsides  
Beyond this life I take  
From the devil I learn to sacrifice  
Beyond this life, my faith  
The power beyond the grave

Blood on blood  
Eye to eye  
Mass confusion goes through my head  
Blurring vision  
Violating all that I have known

Complicating one's mind  
Unprotecting the soul  
Desperate warnings  
Begin to fear, I take control

Beyond this life I face  
No compromise  
Beyond this life, my fate  
We perish the life subsides  
Beyond this life I take  
From the devil I learn to sacrifice  
Beyond this life, my faith  
The power beyond the grave.
