Nothing is ever the way you think it be
I shit down the neck of reality
Time and space bend in eternal dance
I see all before it is created

Flow on through, unceasing
Second sight
It's all for you to understand
Understand?

Bathed in blood, basking in the godhead
No truning back the door's wide open
Transmutation, transpose, transmit light
All's been given, no more need for eyes

Flow on through, unceasing
Second sight
It's all for you to understand
Understand?
