Take me out tonight so I can fall
into your arms, into your arms

Leave me out all night so I can crawl
into your arms, into your arms

But with the same old haunts
i just have to sayâ€¦

I feel the world tonight
it's getting me down
and just like the old line
you'll spin it around
i feel the world tonight
wearing me down
just like the old line
spinning around

Take me out and leave me on the ground
i fell in love, i fell in love

Make me laugh in panic like a crowd
i fell in love, i fell in love

But with the same old haunts
i just have to sayâ€¦

I feel the world tonight
it's getting me down
and just like the old line
you'll spin it around
i feel the world tonight
wearing me down
just like the old line
spinning around
