Don't you feel lost, Don't you feel cold inside,
Don't you lost faith, Don't you let go tonight.
'Coz I'm here, Yes I'm here,
To hold you one more time,
Always here.
I dream of you, when you're not by my side,
And I wait for days and days,
Then you'll bring guiding lights.
And you're here, and you're here,
To hold me one more time,
Always here.
Sad goodbyes, kept inside, almost choking,
No more tears over years of stolen moments,
When you go I will know you're beside me,
Always here, Always here.
Don't you feel lost (Don't you feel lost),
Don't you feel cold inside.
Don't you lose faith, no no no,
Don't you let go tonight.
'Coz I'm here, Yes I'm here,
To hold you one more time,
Always here, Always here.
(Repeat) Always here.
