I know you blame me for your problems
Disappointments and breakdowns
But I didn't ask to be here
And you didn't have to hang around

Well so what's new
'cause I blame you
For that and so much more
You're just a parasite
And I'm not your whore

Like a ten ton half-track
I gonna cross your line
Just like a common maniac
In the sunshine

Chorus: Hate me - hate me
You want me to break you gotta make me
Hate me - hate me
Give me a reason to live
Hate me - Hate me
So what's happened lately
Hate me - hate me
Give me a reason to live

Just an observation
Before you go to hell
You don't like me and I don't like you
And I'm sure
It's just as well
Did I ever tell you how much I don't like you?

Chorus: Hate me - hate me
You want me to break you gotta make me
Hate me - hate me
Give me a reason to live
Hate me - Hate me
So what's happened lately
Hate me - hate me
Give me a reason to live
