Will I ever find a bassist and a drummer
To help me play my original songs?
It would seem I don't have very much to offer
With just my guitar and my voice to move the music
along

I can't offer anyone any money
Only two sets of my songs that really rock
And a will that lets nothing get in my way
Not even the North Texas cops
So please remember my name is Dean Strickland
'Cause in the future you'll be hearing it again
I'm the most hated singer/songwriter in Denton
Who is struggling to form a band

Will I ever find a bassist and a drummer
To help me play my original songs
Of which I have plans to write more as I live them?
And then one day I'll be gone
