I don't want to lose her
She's my new drama
I think I love her
I hardly know her

Conflicting interest
She passed my test
She's just what I want
She could be the one
Conflicting interest
She passed my test
She's just what I want
But I've got problems

Don't know what I should do
A rebel without a clue
If you were in my shoes
I know you'd love her too

Conflicting interest
She passed my test
She's just what I want
She could be the one
Conflicting interest
She passed my test
She's just what I want
But I've got problems

Conflicting interest
She passed my test
She's just what I want
She could be the one
Conflicting interest
She passed my test
She's just what I want
But I've got problems
