The rain it slows me down  
And keeps me looking forward  
To when the sun comes back around  
On rainy days I wish all the dark grey clouds  
Would quickly float away  
For this reason I anticipate  
The sunny skies with a smile on my face

With the sunshine I feel more free  
After the rain the clean fresh air  
I do love to breathe  
All times of year whether Winter, Spring, Summer, or  
Fall it's great  
For this reason I anticipate  
The change of seasons with a smile on my face

Severe weather won't ever hold me back  
'Cause on my dreams my mind's focused and on the  
right track  
I keep moving forward I'm not afraid of looking back  
Since I've learned from my past mistakes  
And keep working hard to make the world a better  
place  
For this reason I anticipate  
A bright future with a smile on my face
