Visit "[Cigarettes](#)" on MotoLyrics.com

Pack it up cigarettes on the counter.carrying the
governor of california
And still they want the money , still they want the tax
Still they want the money still they want the tax

Why not take paper courancy and lighten up and lower
the contents
And the p-p-puff
Then you could keep the money you could keep the tax.
You could keep the money you could keep the tax

Fields raisen, growin tobacco
Could be used to feed a third world country.
This is the age of democracy
Everybody's saying : vote for me...vote for me
Blind leader leading the blind
The cheaters and the cheaters who were always kind.

And still theywant the money , still they want the tax
still theywant the money , still they want the tax
The tax
the tax
the tax

still theywant the money , still they want the tax
still theywant the money , still they want the tax
still theywant the money , still they want the tax
But the biggest serial killer is a heart attack
etc.
