Do you, do you think about me?
Do you, do you think about me?

I see the setting sun, of another passing day
There's been questions on my mind, since you been
away
Friend's say that you're doing well, you finally got it
made
Outside I share my joy for you, but inside my heart still
aches

It's like I'm there with you, playing games with you
You're always on my mind
And I watch you hurt all the time

(Chorus)

Do you think about me? like I think about you
Do you sometimes stay awake at night?
Till the morning light? cos you don't know what to do
Do you think about me? like I think about you
Do you toss and turn does your heart still burn?
For the passion we went through

Do you think about me?
Do you think about me?

I see your face at night, in every dream I dream
Cos I see a message, please tell me what it means
If I had your number, I'd call you on the phone
But your voice wouldn't be enough, I'd be better left
alone

It's like I press rewind, it's like the hands of time
That starts all over again
Every day and night, it won't end

(Repeat Chorus)

I wanna know-whoa, do you think about me?
Is there a chance? that we could work it on out
It's been so long? Session and it's plain to see
That I got what you want, and I just got what you need

(Repeat Chorus)

Do you think about me (do you think about me)
Like I think about you (like I think about you)
(Like I think about you baby, all through the night)

Do you think about me like I think about you?
(Do you, (do you), think about me)
(Whoa, oh now baby, eh hey, eh hey)

Do you think about me?
(Everytime you're near, my heart is burning)
Don't you need me like I need you, shared the passion
we went through
Do you think about me (do you think about me)
