Visit "[Get Down With Me](#)" on MotoLyrics.com

Let me tell ya
Bout the night I wanna have
Gonna show ya
How you're gonna make it last
Are you ready?
When I'm takin it too fast
Just for me what I need
And release a part of me

So tonight (all night)
Gonna take you on a ride
And you better make it right
Cos tonight (all night)
There's only one thing on my mind
And you'll find out just in time

If you knew (if you really knew)
Just what the night has got in store for you (you
wouldn't leave)
You wouldn't leave the room until I am through (I'm
tired of being under)
I'm tired of being undercover (It's time)
It's time to be your lover
So get down with me

Let me know
What is going through your mind
Does it show
How I'm feeling deep inside
Hold me close
Now that you know how it goes
We can do it again
And this night will never end

So tonight (all night)
Gonna take you on a ride (take you on a ride)
Oh, you're gonna make it right
Cos tonight (ooh)
There's only one thing on my mind
And you're gonna find out tonight

If you knew (if you knew)

Just what the night has got in store for you (you
wouldn't wanna leave)
You wouldn't leave the room until I am through

(Until I was done with you and we were through)
I'm tired of being undercover (it's time)
It's time to be your lover
So get down with me

Now that we have been together for a night (now that,
together for a night)
It's time that you and I to say goodbye (it's time, say
goodbye)
Don't try to hold on to this moment (to hold on to this
moment)
Cos when you wake up I'll be gone, yeah, yeah-yeah

If you knew (if you knew)
Just what the night has got in store for you (ah, just
what the night has got instore)
You wouldn't leave the room until I am through (til I am
through, no-no, no)
I'm tired of being undercover (I don't wanna be)
It's time to be your lover (now it's time to be)
So get down with me

If you knew
(Now it's time to get down with me, now it's time to get
down with me)
Just what the night has got in store for you
(Now it's time to get down with me)
You wouldn't leave the room until I am through
(Now it's time to get down, now it's time to get down
with me)
I'm tired of being undercover
(Now it's time to get down with me, now it's time to get
down with me)
It's time to be your lover
(Now it's time to get down with me)
So get down with me
