Be in me now
Don't lose your nerve
Laughing out loud
Has left me sober

Don't tell me why your hands lie
Spare me this while I smash this ground
If I forgive you, are you above her?
Your hands held high to show me
If I forgive you, are you above her?

Leave out the way
I tremble near you

Don't tell me why your hands lie
Spare me this while I smash this ground
If I forgive you, are you above her?
Your hands held high to show me
If I forgive you, are you above her?

Be in me now
Don't lose your nerve

Spare me this while I smash this ground
If I forgive you, would you suffer?

Spare me this while I smash this ground
If I forgive you, are you above her?
Your hands held high to show me
If I forgive you, are you above her?

Spare me this, won't you spare me this
Won't you spare me this
Don't tell me why your hands lie
Don't tell me why your hands lie
