Oh you never know,

Oh you never know

what the punks might say so better shut them up

Oh you never know,

Oh you never know

what the punks might do so better lock them up

but I've got some uncut news for you

(Chorus)

Hey, if you don't change,

if you cling to your properties

gotta change,

what you see as your foundation

better change,

cause I'll be in your face and

I got a 5-inch gun in my mouth,

so dive motherfucker

we are behind you in this case, proceed,

chain them to the aircraft and sample their urine

ha ha ha, yes yes of course,

yes yes certainly

strap them to the fence and spray them with cold water

and for gods sake give them a 24hour bedside lamp

(Chorus)

But, hey if you don't change

if you cling to your properties

gotta change,

what you see as your foundation

better change,

cause I'll be in your face and

I got a 5-inch gun in my mouth,

so dive motherfucker

change

better change (x2)

gotta change

better change (x2)

'cus if you don't change

better change

I said

dive motherfucker (x4)
