your attention please all passengers
with confusion and comfort we live out our lives
but your reality has consequence
escape in front or behind me
down the center we score your slide...

won't someone tell me why the hell we try to cover it
up?
there's got to be another way
some kind of system to help me get close to my soul
when out of darkness came a light from

inside you, inside me
tell you who you are
who you want to be
the line's been drawn
who's side you on?

won't someone tell me how we live to be 75
there's got to be another way
some kind of system to tell me how I'm supposed to
survive
when out of darkness came a light from

inside you, inside me
tells you who you are
who you want to be
the line's been drawn
who's side you on?

your attention please all passengers
with confusion and comfort we live out our lives
but our reality has consequence
escape in front or behind me
down the center we score your slide

your attention please...
