I know your name
I call it out several times a day
you'll find me gone, down deep in your wake
Am I the only one out here?

cause I was unclear
when I said I had absolutely no idea
how it felt to go overboard
am I the only one out here?

Waving my arms
because I don't know just how you fell for
there must be others lying in vain
or am I the only one deep in your wake?

You seem so immune
use a gentle word to hide your need to consume
and what's left will go overboard
am I the only one out here?

Waving my arms
because I don't know just who you fell for
there must be others lying in vain
or am I the only one deep in your wake?

Here I am...
waving my arms
because I don't know just who you fell for
there must be others lying in vain
or am the only one?

Waving my arms
because I don't know just who you fell for
there must be others lying in vain
or am I the only one deep in your wake?
