There is something you should know,
something you should think about.
Where you wanna go?
Do you want me in or want me out?
I got stuff to do,
it's got nothing to do with you
I want to let you know I'm very tired of...

You & me, We're like the pollen in the breeze,
Summer with a freeze,
You & me.

Yesterday is over
today I gotta deal with how tomorrow might suck.
Suck if you don't understand the way it oughtta be,
It's got alot to do with me,
I want to let you know
I'm really very tired of...

You, me, I want you to come close we're like a
cracker without cheese I can never get
close enough to you
