"A Prescription For Mankind"

Visit "[A Prescription For Mankind](#)" on MotoLyrics.com

Who are you?
Who are you?
Gonna teach me the lesson's of life?
Should I beg?
Should I steal?
If it's to die for, will it seal the deal?
Should I kneel down and pray?
Kneel down and kiss the divide?

I live in fear
I have I'll will

What do you prescribe for a lack of faith?
Is it an ocean away in a fortress high in the sky?

The heavens gave way to a molten bloody clot
Down came an angel such cantankerous rot

Up rose the devil to walk within us all
A prescription for mankind?...
The devils dance with God!

Who, who are you?
Who, who are you?
Gonna teach me the lesson's of life
I should bed
I should steal
I should die for if it seals the deal
Or
Should I kneel down and pray?
Kneel down and kiss the divide?

Order order over and over order over over and over
Order order over and over order over over and over
I am the ball you are the chain
Together we are connected as one
I do believe la di da
Hell is on Earth
I do believe
Hell is on Earth...
