Come on babe, I've never needed you so bad
You were born on a full moon, but baby,
I'm the only one howlin'
I was born on a bad moon

Oh Babe, I would die for you
Oh Babe, I will never stray
Oh Babe, I would die for you
Oh Babe, I will never leave

Come on Babe, I never knew that you needed me
I was born on the wrong side,
The wrong side of everything
Knives in the kitchen, sheets on the bed
It's just another distraction from the love we have

Oh Babe, I would die for you
Oh Babe, I will never stray
Oh Babe, I would die for you
Oh Babe, I will never leave

I've been born inside of deus/divus
