Visit "[Distorting A Code](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I don't need the answers  
When I got no place to go  
All I need is a riddle, and some visionary hope  
I don't need the answers  
When I got no place to go  
All I need is a riddle, into visionary hope

How do I find my way back home?  
How do I find my way...  
How do I find my way back home?  
How do I find my way home?

I've received a message  
Just to live and let go  
But the past it tangles into everything I know

Oh, I've received a message  
Just to live and let go  
But the past it tangles into everything I know

How do I find my way back home?  
How do I find my way...  
How do I find my way back home?  
How do I find my way home?
