Fraud!  
Millions of blind dummies  
Lie!  
Your life is not your life  
Truth!  
Is only an imitation  
Pain!  
... through our minds

I can't believe in prophecies  
I can't believe in faith  
Why I can't decide  
What is wrong with my life?

Fraud!...

I hate this solitude  
Everything what I see is dark  
I am lying in my vomits  
Will she come to me?

Fraud!...

I remember her cold fingers  
My heart was in her hands  
Now I want to vociferate  
I can't live without you!

A decay of conclusion  
The deformity's illusion  
Deprivation of affection  
The effect of dissension!
