I'm alone  
In the dark circle of humanity  
I'm alone, all alone  
I live in this evil world!

My heart wants to go away  
From the torture of evil to the light of day  
Fly my dream, my black dream  
And give me the light of day!

My hellish night changes  
To the normal short, grey day  
Human bodies divide into quarters  
Becoming the dead bodies of evil!

I'm alone...  
All alone...  
And I live in this evil world...

All the hearts are terrified by death  
All the nights and all the days  
Show to all people what you can do  
Leave this world, when you go to sleep!

My heart wants to go away...
